Subject: Free Cell Phone Service

Dear Chairman Fleming,

I could hardly believe the half-page ad in The State soliciting help to get your Commission to change your minds and allow free cell phone service to low-income people. The program is undoubtedly paid for with federal tax dollars as well as the half-page ad. Why people should receive free cell phone service is beyond me and they say it is a stimulus. Where does it all end! I commend your Commission for your decision not to participate.

Sincerely,
Mike Balthazor
